
Salon duc Tape – Checking in After the First 100 Days of the Second Trump Administration – May 9th

How bad has it been, and what gives you hope?

The salon on **Friday, May 9th** will feature an in-person group discussion at the FoCo Café facilitated by **Kevin Cross** taking stock of the first 100 day of the Trump Administration. There will be no formal presentation. Here are the discussion prompts; please be prepared to share your thoughts and feelings on those that resonate with you:

1. Introduce yourself, then state the one thing that has most surprised you most during the Second Trump Administration's first 100 days.
2. How close do you think the United States has come to becoming a fascist regime since Donald Trump's inauguration? Explain.
3. Do you agree with the assertion that the U.S. executive branch has become increasingly repressive over the past several decades? Why or why not? If you agree, what do you think is behind that trend?
4. What do you see as being among the greatest accomplishments of the forces opposed to the MAGA regime over the past 100 days, locally and/or nationally?
5. What would you like to see the forces opposed to the MAGA regime doing more of in the coming weeks and months?

Kevin is a board member of the [Northern Colorado Alliance for a Livable Future](#) (NCALF). He has been organizing salons since 2006. He is looking forward to a lively and illuminating discussion on May 9th!

Salon duc Tape, a public forum sponsored by NCALF, usually meets on the 2nd and 4th Fridays of each month from 7:00 — 9:00 p.m. **This meeting be held in person at the FoCo Café, located at 225 Maple Street in Fort Collins. Please bring at least one food or hygiene item to help the FoCo Café's serve its diverse clientele** (see list of needed items below). The Café is not charging us for the use of their space, so consider this as your entrance ticket. However, if bringing a food or hygiene item is difficult for any reason, please don't let that prevent you from joining us.
